DAVE'S MOST REQUESTED TOPICS

Becoming a Leader of Character

People don't follow you because of WHAT you can do, they follow you because of WHO you are. Most speakers will say you need to have character, but nobody tells you how to go get character! That is where this presentation is different.

Based on Dave's Best-Selling Book: *Becoming a Leader of Character*.

The Courage to Lead

Courage is a habit that can be developed and is essential in today's leaders. This session is designed to challenge your comfort level and inspire you to choose *Courage* over the fear of failure, speaking up, and the unknown.

Leading without a Title

A company with leaders at every level will always beat a company that only has leaders at the top. In this presentation I focus on how to lead no matter where you are on the organization chart.

Attitude is a Choice

Positivity is a habit we can all develop. Bad attitudes start with a self-focused perspective. This presentation focuses on the daily attitude choices we make and how changing those choices affects who we are and our impact on others.
